More specific information about the material covered in each test will be provided later in the term.

The short written assignment will consist of a two-page paper responding to one of two possible questions that relate to course material. These questions, as well as more information on the expectations of the papers, will be provided later in the term. The paper will require no research outside course material.

Short Paper: Wednesday, July 31	37%
Test 2: Monday, August 12	25%

Make-up tests/Late Assignments:

Students who fail to attend a test or hand in an assignment will receive a grade of *zero* unless they contact the teaching assistant via e-mail (matt.patterson@utoronto.ca) **WITHIN THREE DAYS** of the test or assignment due date. Make-up tests or extended deadlines may be granted if the student is able to provide proper documentation from a physician or college registrar.

Tutorials and Teaching Assistant Support:

Tutorials will be held the class before the tests from 5:00 to 6:00 PM in SS2117.

Tutorial 1: July 15
Tutorial 2: July 24
Tutorial 3: August 12

Tutorials are a time in which broad review of the course material will be provided and, more importantly, offers the opportunity for students to ask questions and receive clarification on material that they may be struggling with or which is unclear. Tutorials will also engage study tips for the tests and offer example test questions. Tutorials are *not* to be considered a substitute for attending lecture.

The teaching assistant is also available via e-mail to answer any questions/concerns students may have regarding course material. The teaching assistant will respond to student e-mails within 24 hours during

regular working hours (M-F 9:00 AM - 5:00 PM). Additionally, the teaching assistant may be available to meet by appointment should students' require further assistance. Appointments must be made *no less* than 2 business days in advance. Should the request for appointments be substantial, office hours will held with the times announced in advance in class.

IMPORTANT

Students are responsible for *all* course material. The instructor will be engaging with many ideas, concepts, and theorists complementary to, but not covered in, the text. Thus, it is important for students to attend all lectures in addition to completing all readings. Students are encouraged to find a “buddy” in class with whom they can share notes should they miss lecture. *All* course material may be on tests.
