Overview
The theoretical and methodological underpinnings of urban sociology are broad, reflecting a range of disciplines and approaches. This course first reviews theories of urban genesis and urban form; the interrelationship of urbanization, industrialization and modernization, issues in urban living (housing, transportation, urban-renewal, poverty, unemployment, etc.); urban social networks (ethnic and cultural heterogeneity, neighbourhood, community and other voluntary associations). In doing so, we will review different theoretical and methodological approaches for understanding urban life. Second, the course covers several special topic areas in urban sociology: homelessness, gentrification, multiethnic cities, globalization, residential segregation, crime, and public space. Third, the course offers real world observation and examples that speak to the strength and limitations of theory, data, and methods for studying urban problems.

Evaluation
Final marks will be based on three grades. There is an in-class midterm test worth 32.5%, a final exam worth 32.5% that is not cumulative, and an independent research project worth the remaining 35%. Choice of paper topics will be discussed in class.

Prerequisites
Completion of 0.5 SOC at the 100 level-- is required to take this course. Students without this prerequisite will be removed from the course.

Lecture Slides/Notes
Lecture slides will be posted the evening before class. They are provided to benefit in-class note taking. Besides the posted lecture slides, I often incorporate a range of audiovisual material into lectures. It is important to complete all required readings and attend class because the midterm and final exam will cover both required readings and in-class material.

Email and the Course Webpage
Email and the ability to access the course webpage is important. The instructor and TA's will use e-mail for reminders, clarifications, and notifications, etc. Feel free to contact us via your utoronto e-mail account with questions, requests or problems. Please read the syllabus before asking questions. Any email sent to the instructor or TA should have Soc205H in the subject to ensure that it gets read.
Accessibility Needs
If you require accommodation or have any accessibility concerns, the Accessibility Services office supports students registered in courses on the St. George campus. [https://www.studentlife.utoronto.ca/as/new-registration](https://www.studentlife.utoronto.ca/as/new-registration)

Make-Up Tests
Students who miss a test will receive a mark of zero unless within three days of the missed test he/she contacts the instructor requesting special consideration and explaining why the test was missed. The instructor or TA will communicate the time and location of the make-up test. In order to take the make-up test, students must bring proper documentation from a physician or college registrar to the make-up test.

- In case of *illness*, you must supply a duly completed Verification of Student Illness or Injury form (available at [www.illnessverification.utoronto.ca](http://www.illnessverification.utoronto.ca)). A doctor’s note is acceptable, but MUST indicate the start and anticipated end date of the illness. The form must be placed in a sealed envelope, addressed to the instructor, and submitted when you take the make-up test.

- If a *personal or family crisis* prevents you from meeting a deadline, you must get a letter from your college registrar (it is a good idea anyway to advise your college registrar if a crisis is interfering with your studies). The letter must be placed in a sealed envelope, addressed to the instructor, and submitted when you take the make-up.

Deadlines for Submitting Projects
Late work will not be accepted without proper documentation from a student’s physician or college registrar (described above). Such documentation does not guarantee acceptance of your work.

Plagiarism
Cheating and misrepresentation will not be tolerated. Students who commit an academic offense face serious penalties. Avoid plagiarism by citing properly: practices acceptable in high school may prove unacceptable in university. Know where you stand by reading the “Code of Behaviour on Academic Matters” in the Calendar of the Faculty of Arts and Science.

*Normally, students will be required to submit their course essays to Turnitin.com for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the Turnitin.com reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University’s use of the Turnitin.com service are described on the Turnitin.com web site.*

Readings
- Most readings are from *Urban Canada: Sociological Perspectives* edited by Harry Hiller (3rd Edition, 2014), which can be purchased at the University Bookstore.
- Any remaining readings are available through our course webpage
- Any readings listed as “supplemental” are NOT required reading. I have included them in case you wish to read further into those topics.

Comments on Writing
The instructor is willing to read over drafts of your work during visits to office hours. However, I am more able to help students who come early. All too often, papers are one or two drafts short of
excellence when time expires. We also encourage you to use the university's writing resources.
