

Milestones: Time Targets for the Sociology Ph.D. Program—October 2019

The following milestones reflect an ideal timeline in the Ph.D. program. These are based on SGS and departmental requirements as well as past students' experience with moving successfully through the program.

The time targets assume entry from a M.A. program.

Supplement to Milestones for the Ph.D. Program in Sociology

This document provides additional information about the ideal milestones for the Ph.D. program in the Department of Sociology.

The presentation of the milestones is meant to suggest ideal progress through the Ph.D. program. There is some flexibility in the milestones, insofar as extensions are available. However, there are also limits to the flexibility, beyond which a student will be considered not in good academic standing.

To remain in good academic standing, a student must adhere to the following deadlines (prior to Achieving Candidacy):

<u>Milestone</u>	<u>Deadline</u>
Complete at least 2.5 FCE	End of Year 1
Select a supervisor	End of Year 2
Pass one comprehensive exam	End of Year 2
Complete at least 4.0 FCE	End of Year 2
Pass a second comprehensive exam	End of Year 3
Complete at least 5.0 FCE	End of Year 3
Defend the dissertation proposal	End of Year 4
Achieve candidacy	End of Year 4

When a student does not meet these deadlines, the student will not be eligible to receive funding for conference travel or research expenses from the Department. If after two academic terms have passed a student has still not met a deadline, the student will not be eligible to receive a UTF stipend.

SGS policy requires that students achieve candidacy (completion of coursework, passed two comprehensive exams, defended dissertation proposal) no later than the end of Year 3. A student who has not met that deadline may apply for a one-year extension from the Department of Sociology. Note that the student will remain in good academic standing without achieving candidacy until the end of Year 4. If a student has not achieved candidacy by the end of Year 4, the student may apply for a one-year extension from SGS. The extension will only be approved by SGS if there is a strong justification to explain the delay and to assure SGS that candidacy can be achieved within the year.

SGS policy also requires that students pass their final oral examination no later than the end of Year 6. After year 6, good academic progress is determined by the Annual Progress Report in collaboration with the graduate office. A student who has not successfully defended their final oral exam by the end of year 6 may apply for a one-year extension from the Department of Sociology. If a student has not passed the final oral examination by the end of Year 7, the student may apply for a second one-year extension from the Department of Sociology. If a student has not passed the final oral examination by the end of Year 8, the student may apply for a one-year extension from SGS. The extension will only be approved by SGS if there is a strong justification to explain the delay and to assure SGS that candidacy can be achieved within the year. A second extension at the end of Year 9 is possible from SGS. SGS will not grant extensions past the end of Year 10.
