Overview
The theoretical and methodological underpinnings of urban sociology are broad, reflecting a range of
disciplines and approaches. This course first reviews theories of urban genesis and urban form; the
interrelationship of urbanization, industrialization and modernization, issues in urban living (housing,
transportation, urban-renewal, poverty, unemployment, etc.); urban social networks (ethnic and
cultural heterogeneity, neighborhood, community and other voluntary associations). In doing so, we
will review different theoretical and methodological approaches for understanding urban life. Second,
the course covers several special topic areas in urban sociology: homelessness, gentrification,
multiethnic cities, globalization, residential segregation, crime, and public space. Third, the course
offers real world observation and examples that speak to the strength and limitations of theory, data,
and methods for studying urban problems.

Evaluation
Final marks will be based on four grades –

- Ten weekly written responses <500 words, Sept 23-Dec9…………25%
- Field Exercise, due Oct 21st ………………………………………………………. 20%
- Individual Research Project, due Dec 2nd …………………………………..30%.
- Final Test, administered online Dec 9th…………………………………….25%

Prerequisites
Completion of 0.5 SOC at the 100 level-- is required to take this course. Students without this
prerequisite will be removed from the course.

Live Lectures, Recorded Video, and Slides/Notes
Because of Covid-19 infection risks, this course is being taught online, with both synchronous and
asynchronous lectures. On the evening before lecture, the instructor will post lecture slides that may
benefit your note taking. Links for the lectures themselves are posted on the Quercas week-by-week
section. Synchronous lectures are viewed through Microsoft Teams, and asynchronous lectures can be
viewed through most video viewers. Synchronous lectures will start at 12:10pm and end at 2pm.
Regardless of the format, for most classes, the instructor will also post a recording of the lecture so you
can re-watch. Besides these posted materials, a range of audiovisual material are incorporated into lectures. It is important to complete all required readings and follow lectures because the test held on the last class will cover both required readings and lectures.

**Email and the Course Webpage**

Email and the ability to access the course webpage is important. The instructor and TA's will use email for reminders, clarifications, and notifications, etc. Feel free to contact us with questions, requests or problems. Please read the syllabus before asking questions. Any email sent to the instructor or TA should have Soc205H in the subject to ensure that it gets read.

**Missing the Test and Submitting Late Work**

Students who miss the test, or are late in submitting an assignment for medical reasons, need to email the instructor (not the TA), and also declare their absence on the system (ACORN). (NOTE: Because of Covid-19, students do NOT need to submit the usual documentation, i.e., medical notes or the Verification of Illness forms).

Students who miss the test, or are late in submitting an assignment for other reasons, such as family or other personal reasons, should request their College Registrar to email the instructor.

Late work will be accepted at the discretion of the instructor.

**Turnitin**

Students agree that, by taking this course, all required papers may be subject to submission for textual similarity review to Turnitin.com for the detection of plagiarism. All submitted papers will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of those papers. The terms that apply to the University’s use of the Turnitin.com service are described on the Turnitin.com web site.

Assignments not submitted through Turnitin will receive a grade of zero (0 %) unless students instead provide, along with their exams, sufficient secondary material (e.g., reading notes, outlines of the paper, rough drafts of the final draft, etc.) to establish that the exam they submit is truly their own. The alternative (not submitting via Turnitin) is in place because, strictly speaking, using Turnitin is voluntary for students at the University of Toronto.

**Plagiarism:** Be careful to avoid plagiarism. It is a serious academic offense with serious penalties (see the “Code of Behavior on Academic Matters”). If you are using someone else’s ideas, do not present them as your own. Give proper references if you are using somebody else’s ideas, and use quotation marks if you are quoting. When in doubt, it is always safer to over-reference --you are not going to be punished for that. Please also be aware that turning in an old paper, or large parts thereof, for credit in a second (or third etc.) course, is considered an academic offense that results in students being referred off to the Office of Academic Integrity.

**Accessibility Needs**

The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact Accessibility Services as soon as possible: disability.services@utoronto.ca or http://studentlife.utoronto.ca/accessibility.
Readings

- Most readings are from *Urban Canada: Sociological Perspectives* edited by Harry Hiller (3rd Edition, 2014), which can be purchased at the University Bookstore.
- Any remaining readings are available through our course webpage
- Any readings listed as “supplemental” are NOT required reading. I have included them in case you wish to read further into those topics.

Feedback on Ideas and Writing

The instructor is happy to discuss your ideas and writing during online office hours, or through email within limits. However, more help can be provided to students who ask early. All too often, papers are one or two drafts short of excellence when time expires. We also encourage you to also use the university's writing resources.
